14.00 BASIS AND METHOD OF PAYMENT

14.01 Rates

(a) For collection and disposal services required to be performed pursuant to the specifications, the charges shall not exceed the rates as fixed by the contract Documents.

(b) For special collections of Dead Animals and Special Waste provided by the Contractor pursuant to specifications, the charges are to be negotiated between the Contractor and Producer prior to collection.

14.02 Modification to Rates

(a) The fees which are established by contract shall comply with all provisions of the contract during the life of said contract. Rate adjustments can be made as specified in paragraphs (b), (c), (d), and (e) below. Any request for compensation adjustments must be submitted, in writing, by May 30, prior to the new budget year and shall become effective on September 1, of said year.

(b) Adjustments in tipping fees can be requested so as to reflect actual changes in cost. In no event will this adjustment be more or less than the actual changes in the fee charged by the landfill. Further, the contractor agrees to seek the lowest tipping fee available, which would allow these cost savings to be passed on to the city. In no event shall the City pay a higher fee than if they were still providing the collection and disposal service to the citizens of the City.

(c) The fees which may be charged by the contractor for the second and subsequent years of the term hereof shall be adjusted upward or downward to reflect changes in the cost of operations, as reflected by fluctuations in the Consumer Price Index for Urban Wage Earners and Clerical Workers (all items) and a Consumer Price Index for Urban Wage Earners and clerical Workers, Expenditures Category "Gasoline", published by the U.S. Department of Labor, Bureau of Labor Statistics. As of the last day of February of the first year of the contract and every year thereafter (the "Rate Modification Date"), the fee shall be increased or decreased for the ensuing yearly period beginning the September 1st immediately following the preceding February 28th in the percentage amount equal to 90% of the net percentage change of the All Items Index plus 10% of the net percentage change of the Gasoline Index. For purpose of computing the adjustment to fees charged in this paragraph, the increase or decrease shall be determined by comparing the amount shown on the index for February 28, 2018, to that shown on February 28,

2017 and the index on each February 28th, thereafter shall be compared to that of the preceding February 28, and the price adjusted upward or downward accordingly for the period which runs from September 1st of each year to August 31st of the succeeding year. However, no annual rate increase resulting from the use of this formula shall exceed 5% per year.

(d) There shall be a regular adjustment in the rates. The first adjustment shall be made on September 1, 2018, and shall be repeated at the end of each twelve (12) months thereafter.

(e) A Fuel Surcharge to be assessed upon each month's billing to the City based upon pricing for diesel fuel as published by the Department of Energy ("DOE") for the Midwest Region is permitted. An average of the DOE's weekly-published rates will be computed for a 3-month period and the corresponding Fuel Surcharge per Exhibit A will be applied for the succeeding quarter.

14.03 City to Act as Collection City shall submit statements and collect from all Residential Units for services provided by the Contractor, including those such accounts that are delinquent.

14.04 Delinquent and Closed Accounts The Contractor shall discontinue Refuse collection service at any Unit as set forth in a written notice sent to it by the City. Upon further notification by the City, the Contractor shall resume Refuse collection on the next regularly scheduled collection day.

14.05 Contractor Billings to City The Contractor shall bill the City for service rendered within ten (10) days following the end of the month (Bill *must be received by the City*) and the City shall pay the Contractor on or before the 25th day following the end of such month. The Contractor shall be entitled to payment for services rendered irrespective of whether or not the City collects from the customer for such service. All billing and payment shall be based on the rates and schedules set forth in the Contract Documents as follows.

(a) Residential Unit Count Payment for Residential service shall be based on the unit rates as established by contract and a total count of residential customers made in conjunction with the City within the first 30 days of the contract. This total count of customers shall be deemed correct for the next 11 months of the contract. At the end of the first year and each subsequent year, the unit count shall be increased or decreased based upon the preceding year's number of building permits or demolition permits that have been issued by the City for residential units.

(b) Payment to the Contractor for municipal facilities services shall be based on the number of bins of the various sizes and frequency of pick-up that are serviced per month, and will be itemized and billed directly to the City.

15.00 TRANSFERABILITY OF CONTRACT

Other than by operation of law, no assignment of the Contract or any right accruing under this Contract shall be made in whole or in part by the Contractor without the express written consent of the City, which consent shall not be

unreasonably withheld; in the event of an assignment, the assignee shall assume the liability of the Contractor.

16.00 CONTRACT NOT A FRANCHISE

It is the understanding and intention of the parties hereto that this agreement shall constitute a contract for the collection and disposal refuse; that said Contract shall not constitute a franchise; nor shall the same be deemed or construed as such.

17.00 OWNERHIP
